Prince Edward Island is one of the truly delightful vacation

spots in Maritime Canada. It has a charm of its own that lures visitors back from all parts of the United States and Canada for longer stays.

Outstanding attraction offered by this lovely little Island is its excellent beaches. Hundreds of miles of beaches offer the summer visitor pleasant, relaxed, holiday pleasure.

Only those who take a dip in the province's warm salt water can believe its exceptional warmth. In summer months the water averages 68-70 degrees Fahrenheit. Island beaches are safe but as an added precaution life guards are stationed at several of the larger resorts.

The Island specializes in low-cost, family holidays. Children can romp most of the days on the nearby beach, alternately swimming and building castles in the sand. The beaches are not crowded.

Harness horse racing is an Island specialty. Prince Edward Island has often been referred to as The Kentucky of Canada. Top Maritime and Eastern Canadian horses compete for turf honors during

Charlottetown's Old Home Week Racing each August. Betting is high. Prince Edward Island has something to suit every taste. There is golf, tennis, boating, trout fishing, hunting, horseback riding, beautiful scenery for the artist and the camera enthusiast, and

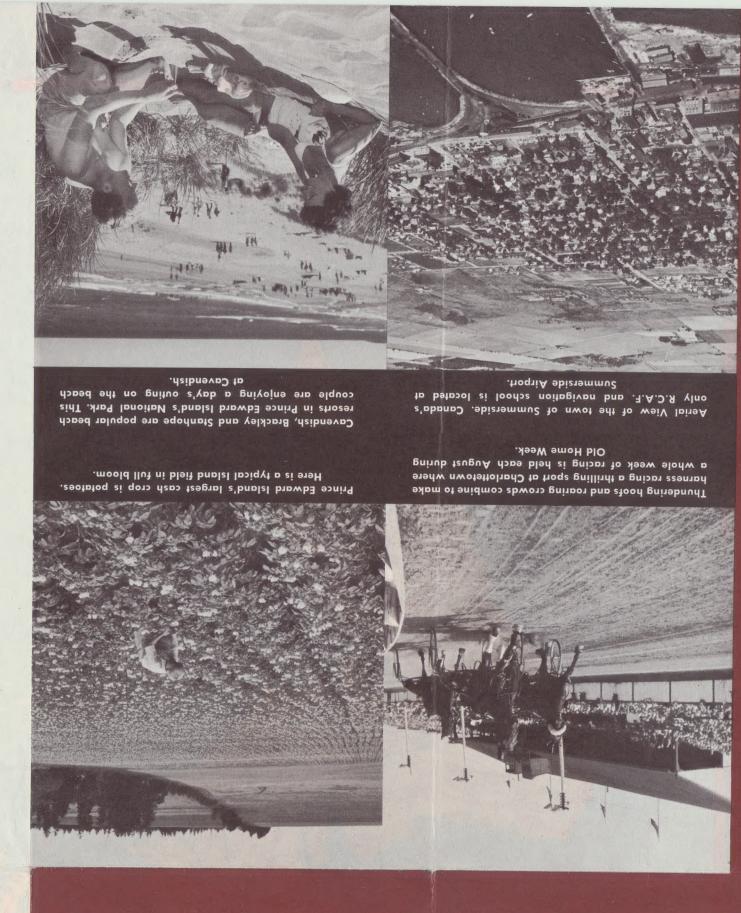

many other diversions. If you just want to loaf, there is plenty of room for that too. Products of both land and sea are plentiful and cheap. That is partly the reason

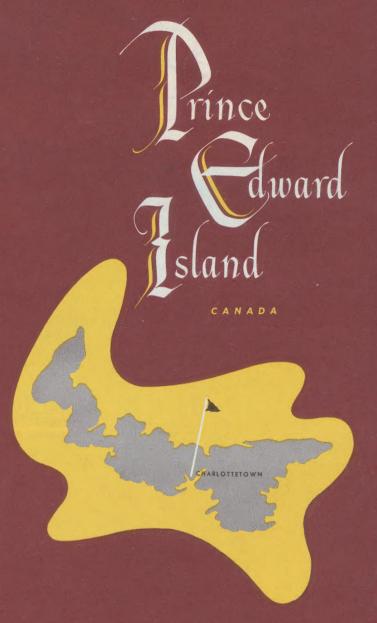

> Island resorts are able to offer the visitor a better rate for food and accommodation than other popular vacation centres. Sea foods including lobsters in season and famous Malpeque oysters, are included on Island menus.

There is one sure way to prove that Prince Edward Island has something special to offer in way of a perfect vacation and that is to come and see for yourself.

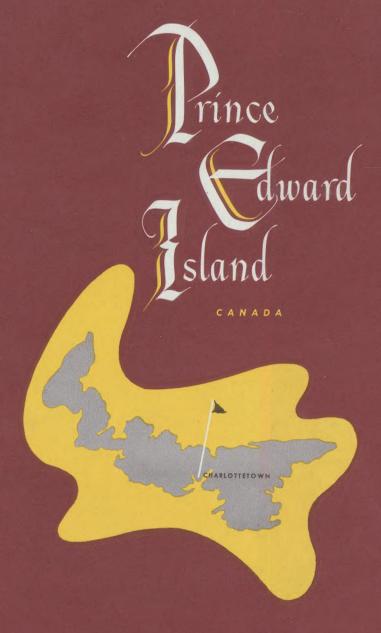

You will be welcome!

Souris lighthouse overlooks a fine harbour on the eastern coastline of the province. An excellent heach is also close to the town,
